

Davie Police Department

PRESS RELEASE

February 13, 2019

The Davie Police Department announces that we have joined in a partnership with SaferWatch. The FREE SaferWatch App gives members of the community a quick and easy way of notifying the police to crimes, threats, suspicious activity, or any other Non-emergency. SaferWatch empowers the user to send a direct message, photo or video directly to Davie PD. Users will also be able to receive Real-Time alerts from Davie PD so that they may be better informed of dangers or police activity in areas or locations that they subscribe to, or are in the vicinity of.

Here's how it works:

1. After downloading the app, the user reports an incident. SaferWatch automatically sends the user's physical location and profile, including medical information and emergency contacts to Davie PD Dispatch.
2. Davie PD Dispatch receives the tip and takes the appropriate action. This may include notifying the user that help is on the way.
3. If necessary, Davie PD Dispatch will send out a mass alert to make sure that everyone is aware and to provide critical safety instructions.

SaferWatch is free to download, free to join, and free to use. Please visit www.DavieAlerts.com for more information on SaferWatch.

SaferWatch is NOT a replacement for 9-1-1. We urge you to always call 9-1-1 in case of an emergency.

We are excited for our partnership with the Town of Davie and the Davie Police Department. The Davie Police Department is a cutting-edge agency that understands the value by implementing the latest technology and further connecting with their residents through community policing.

Geno Roefaro - SaferWatch President
